

AI Readiness Assessment Results

Based on: Q2 2025 Assessment

Score: 4.7 / 10

Report generated on: July 8th, 2025

AI Readiness Score

Based on your responses, your organization is at the developing stage of AI readiness.

This radar chart shows your organization's score across different dimensions of AI readiness. Higher scores (closer to the edges) indicate greater maturity in that category.

Personalized AI Recommendations

Based on your assessment score of 4.7/10 and insights from "MyZone AI Blueprint"

Strategy & Vision

Strategy & Vision is a critical area for MyZone AI Ltd, currently scoring 3.3/10. This score signals a lack of concrete, forward-looking AI strategy and insufficient integration of AGI (Artificial General Intelligence) scenarios into planning. Responses indicate missing corporate AI Rocks, no AI KPIs on the scorecard, and limited benchmarking against competitors. Immediate action is essential: without a clear AI-driven vision and measurable milestones, organizational alignment and innovation will stall.

How You Performed

- Current Score: 3.3 / 10 (33%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Set quarterly, measurable corporate AI objectives (AI Rocks).
- Add AI-specific KPIs to company scorecards and strategic plans.
- Benchmark AI maturity and ambitions against top competitors annually.

Culture & Change-Readiness

Culture & Change-Readiness scored 6/10, indicating a moderately receptive environment but with room for improvement. Staff feel somewhat empowered to suggest automation ideas, and AI wins are occasionally acknowledged. However, resistance remains around consistent communication for tech changes, and AI-aligned values are not fully embedded. Building a more open, adaptive culture will accelerate AI adoption and reduce friction during transformation.

How You Performed

- Current Score: 6 / 10 (60%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Publicly celebrate AI-related wins to reinforce positive behavior.
- Communicate all tech changes with a clear, simple plan.
- Embed AI-aligned values in core values and people-tracker metrics.

Personalized AI Recommendations

Based on your assessment score of 4.7/10 and insights from "MyZone AI Blueprint"

Skills & Literacy

With a score of 4/10, Skills & Literacy is a substantial weakness. There is inconsistent AI training, minimal new-hire onboarding on AI, and no departmental AI Champions. While some personal AI Rocks are set, there's no structured, organization-wide approach to AI education or literacy baseline assessments. Immediate investment in training and role-based upskilling is crucial to avoid falling behind.

How You Performed

- Current Score: 4 / 10 (40%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Assess digital/AI literacy for all staff biannually and tailor training plans.
- Integrate AI fluency into onboarding for every new hire.
- Appoint an AI Champion in each department.

Data & Information

Data & Information scored 5/10, revealing a fragmented approach to data management. While some data strategy review and CRM usage exist, there's no dedicated Data Champion, inconsistent metadata tagging, and missing data-flow diagrams. These gaps could hinder future AI automation and analytics efforts. Prioritizing data stewardship and documentation will unlock more value from your existing information assets.

How You Performed

- Current Score: 5 / 10 (50%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Assign a company-wide Data Champion.
- Maintain a simple, up-to-date data-flow diagram.
- Standardize metadata and tagging for all files and records.

Personalized AI Recommendations

Based on your assessment score of 4.7/10 and insights from "MyZone AI Blueprint"

Technology & Integration

Technology & Integration is a relative strength at 6.9/10. Cloud-based, AI-ready tools and integration platforms (e.g., Make/n8n) are already in use, and preferred AI vendors are identified. However, communication data organization and system connectivity remain inconsistent. Standardizing communication channels and expanding integration coverage will yield even greater efficiency and readiness for advanced AI.

How You Performed

- Current Score: 6.9 / 10 (69%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Ensure all communication channels are structured for future AI search.
- Expand API integrations across all major systems.
- Regularly review and update vendor/partner AI integration lists.

Process & Operations

Process & Operations is a critical risk area with a score of just 3/10. Key processes are not mapped in SOPs, pain points aren't flagged for automation, and prioritization frameworks are missing. Without baseline metrics or clear process documentation, automation and efficiency gains will stall. Immediate process mapping and operational documentation are urgently needed to create a foundation for automation.

How You Performed

- Current Score: 3 / 10 (30%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Map top revenue/time-heavy processes in living SOPs.
- Flag process pain-points for AI-powered automation.
- Use a Prioritization Matrix (ROI, impact, readiness) for process selection.

Personalized AI Recommendations

Based on your assessment score of 4.7/10 and insights from "MyZone AI Blueprint"

Governance, Ethics & Risk

Governance, Ethics & Risk scored 5/10, reflecting basic policies but insufficient cross-functional oversight. There's some compliance and incident planning, but no AI Governance Team and incomplete audit trails. Strengthening governance structures and regularizing reviews will help manage ethical, legal, and operational risks as AI adoption deepens.

How You Performed

- Current Score: 5 / 10 (50%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Form a cross-functional AI Governance Team to meet biannually.
- Maintain audit trails of key-system changes for 90 days.
- Regularly update a plain-English Data & AI Policy.

Financial & Resources

Financial & Resources is neutral at 5/10. There is a dedicated AI budget and TCO reviews, but the company is not fully leveraging available grants or credits. Ensuring resource alignment and pursuing external funding will help sustain and accelerate your AI initiatives.

How You Performed

- Current Score: 5 / 10 (50%)
- Trend vs. Previous: First-time assessment

Key Best Practices

- Track and apply for relevant government AI grants and credits.
- Maintain a dedicated AI budget line for tools, training, and advisory.
- Perform TCO analysis before launching AI initiatives.

Top 5 AI Rocks for Next Quarter

Here are your highest-impact, easiest-to-implement AI rocks for the next 90 days:

- **Map Top Processes in SOPs and Flag Automation Opportunities**

Rationale: Provides immediate visibility into bottlenecks and lays the groundwork for rapid automation wins.

- **Set Quarterly, Measurable Corporate AI Objectives (AI Rocks)**

Rationale: Aligns the organization around clear, actionable goals and reinforces AI as a strategic priority.

- **Assign a Company-Wide Data Champion**

Rationale: Centralizes data accountability, improving quality and readiness for advanced automation and analytics.

- **Assess AI/Digital Literacy for All Staff and Tailor Training**

Rationale: Rapidly raises baseline capability, reducing risk and resistance to AI-driven change across the company.

- **Form a Cross-Functional AI Governance Team**

Rationale: Enhances oversight, manages risk, and ensures ethical, compliant AI adoption as initiatives scale.

Assessment Answers

Question 1

Our Vision / 3-year picture / 1-year plan explicitly considers an AGI future.

Your answer: **Disagree**

Question 2

The company sets at least one corporate AI Rock each quarter, with a measurable outcome.

Your answer: **Strongly Disagree**

Question 3

Every team member sets one personal AI Rock each quarter, tailored to role and proficiency.

Your answer: **Strongly Agree**

Question 4

Our Ideal Customer Profile (ICP) is reviewed annually for AI alignment.

Your answer: **Agree**

Question 5

We benchmark our AI ambitions against competitors at least once a year and are progressing toward real-time insights.

Your answer: **Strongly Disagree**

Question 6

Specific AI Key Performance Indicators (KPIs) appear on the company Scorecard.

Your answer: **Strongly Disagree**

Question 7

Staff feel safe proposing automation ideas.

Your answer: **Agree**

Question 8

AI-related wins are celebrated publicly (Slack, all-hands, etc.).

Your answer: **Neutral**

Question 9

We follow a simple communication plan for any tech change.

Your answer: **Disagree**

Question 10

Automated feedback loops collect team & customer input.

Your answer: **Strongly Agree**

Assessment Answers (continued)

Question 11

Core values and the People-Tracker include at least one AI-aligned metric.

Your answer: **Neutral**

Question 12

Every team member sets an AI-Educational Rock each quarter, tailored to role and proficiency.

Your answer: **Agree**

Question 13

We assess digital/AI literacy for every team member twice a year and tailor follow-up training plans.

Your answer: **Disagree**

Question 14

AI literacy is built into new-hire onboarding.

Your answer: **Disagree**

Question 15

Each department names an AI Champion.

Your answer: **Strongly Disagree**

Question 16

A senior AI advisor (in-house or fractional) is available for guidance.

Your answer: **Agree**

Question 17

A single Data Champion owns company-wide data practices.

Your answer: **Strongly Disagree**

Question 18

A one-page data strategy is reviewed each quarter.

Your answer: **Strongly Agree**

Question 19

Key customer and operations data live in one CRM/ERP or shared platform.

Your answer: **Agree**

Question 20

A simple data-flow diagram shows how data moves between systems.

Your answer: **Strongly Disagree**

Assessment Answers (continued)

Question 21

We enrich first-party data whenever possible.

Your answer: **Neutral**

Question 22

Files and records carry consistent metadata/tags for easy search.

Your answer: **Disagree**

Question 23

Our main systems expose APIs or connect via Make / n8n web-hooks.

Your answer: **Strongly Agree**

Question 24

Core tools are cloud-based and “AI-ready” (modern, open APIs).

Your answer: **Strongly Agree**

Question 25

An integration platform (Make or n8n) already handles simple hand-offs.

Your answer: **Agree**

Question 26

Company communications are stored in Slack/Teams channels that mirror projects or clients for future AI search.

Your answer: **Strongly Disagree**

Question 27

Preferred vendors and partners for AI integrations are identified and vetted.

Your answer: **Strongly Agree**

Question 28

Top revenue- or time-heavy processes are mapped in living SOPs.

Your answer: **Disagree**

Question 29

Each SOP flags pain-points or bottlenecks for potential automation.

Your answer: **Disagree**

Question 30

A Prioritisation Matrix (ROI, time-to-impact, resource alignment) ranks which processes to tackle first.

Your answer: **Strongly Disagree**

Assessment Answers (continued)

Question 31

Baseline metrics (time, cost, errors) are captured before any change.

Your answer: **Neutral**

Question 32

Weekly Level-10 / strategy meetings follow a consistent agenda that includes an AI discussion segment.

Your answer: **Neutral**

Question 33

A plain-English Data & AI Policy covers privacy, bias, and acceptable use.

Your answer: **Agree**

Question 34

A cross-functional AI Governance Team meets at least twice a year.

Your answer: **Strongly Disagree**

Question 35

Data collection complies with GDPR / CCPA / PIPEDA (as applicable).

Your answer: **Agree**

Question 36

A lightweight incident-response plan exists for digital tools and data issues.

Your answer: **Agree**

Question 37

We keep an audit trail of key-system changes for e 90 days.

Your answer: **Disagree**

Question 38

A dedicated AI budget line covers tools, training, and advisory help.

Your answer: **Agree**

Question 39

Government grants or tax credits (e.g., SR&ED, IRAP, CDAP) are tracked and applied for when eligible.

Your answer: **Strongly Disagree**

Question 40

We run a total-cost-of-ownership (TCO) check—licences, staff time, support—before green-lighting any AI initiative.

Your answer: **Agree**
