

# AI Readiness Assessment Results

Based on: Q2 2025 Assessment

**Score: 5.4 / 10**

---

Report generated on: July 8th, 2025

## AI Readiness Score

Based on your responses, your organization is at the developing stage of AI readiness.

This radar chart shows your organization's score across different dimensions of AI readiness. Higher scores (closer to the edges) indicate greater maturity in that category.

## Personalized AI Recommendations

Based on your assessment score of 5.4/10 and insights from "MyZone AI Blueprint"

### Strategy & Vision

MyZone AI Ltds Strategy & Vision score of 5/10 indicates an average level of AI alignment, with notable gaps in forward-looking planning. Responses point to a lack of explicit AGI consideration in long-term vision, and AI isnt yet embedded in every team members planning or customer profile reviews. However, the company does benchmark ambitions and track AI KPIs, showing pockets of strategic thinking. Prioritizing a 1- to 3-year AI roadmap and integrating AI into ICP reviews will strengthen competitive positioning.

#### How You Performed

- Current Score: 5 / 10 (50%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Review and update vision to include AGI/AI impacts on products and customers.
- Set measurable, company-wide and personal AI Rocks each quarter.
- Benchmark AI strategy annually and update plans based on competitor analysis.

### Culture & Change-Readiness

A score of 6.5/10 suggests a moderately supportive culture for AI adoption. Staff feel safe proposing automation ideas, wins are celebrated, and communication around change is solid. However, AI-aligned values and metrics are not yet part of the companys core, and not every team member sets AI learning goals. Bolstering cultural alignment and formalizing AI education will accelerate adoption and reduce resistance as you scale.

#### How You Performed

- Current Score: 6.5 / 10 (65%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Embed AI-aligned values and metrics into core values and people frameworks.
- Celebrate AI wins publicly to reinforce change.
- Encourage every team member to set and pursue AI learning goals.

## Personalized AI Recommendations

Based on your assessment score of 5.4/10 and insights from "MyZone AI Blueprint"

### Skills & Literacy

With a 4/10, Skills & Literacy is a clear weak point requiring urgent action. AI literacy isn't part of onboarding, not all departments have champions, and company-wide training and personal AI development are inconsistent. This gap could stall progress and limit ROI from AI initiatives. A targeted, role-based AI upskilling program and champion network should be launched immediately.

#### How You Performed

- Current Score: 4 / 10 (40%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Integrate AI literacy and prompt fluency into new-hire onboarding.
- Appoint department-level AI champions to drive adoption.
- Schedule biannual AI skills assessments and tailored training.

### Data & Information

At 5/10, data practices are average but fragmented. While a Data Champion exists and a data strategy is reviewed, core data isn't fully centralized, first-party data enrichment is lacking, and documentation of data flows is incomplete. These gaps will limit automation and the effectiveness of AI tools. Centralizing data, improving documentation, and focusing on enrichment are critical for scaling.

#### How You Performed

- Current Score: 5 / 10 (50%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Centralize core customer and operations data on a unified platform.
- Document data flows with simple diagrams for transparency.
- Prioritize first-party data capture and enrichment.

## Personalized AI Recommendations

Based on your assessment score of 5.4/10 and insights from "MyZone AI Blueprint"

### Technology & Integration

A 2.5/10 score here is a significant risk; urgent attention needed. Many core tools are not AI-ready, integration platforms are underutilized, and communications are not organized for future AI search. Preferred vendors aren't identified, and API connectivity is limited. Without a modern, integrated tech stack, AI projects will underperform. Immediate action is required to modernize systems and establish integration standards.

#### How You Performed

- Current Score: 2.5 / 10 (25%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Upgrade core platforms for AI compatibility and open APIs.
- Implement Make/n8n to automate hand-offs between tools.
- Centralize communications in structured, searchable channels.

### Process & Operations

With a 7/10, Process & Operations is a strength, showing well-mapped SOPs, flagged automation opportunities, and strong use of prioritization tools. Baseline metrics are captured before changes, supporting data-driven improvement. However, some processes and meetings lack AI integration. Addressing these gaps, particularly in strategic meeting agendas, will unlock further operational efficiency.

#### How You Performed

- Current Score: 7 / 10 (70%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Map and maintain living SOPs for top processes.
- Use a prioritization matrix to rank automation opportunities.
- Capture baseline metrics (time, cost, errors) before automating.

## Personalized AI Recommendations

Based on your assessment score of 5.4/10 and insights from "MyZone AI Blueprint"

### Governance, Ethics & Risk

A solid 7.5/10 score reflects strong governance and risk practices. Data policies are in place, audit trails are maintained, and incident response is planned. However, meeting frequency and compliance can still be improved. Continuing to evolve governance as the tech stack and data flows mature will ensure ongoing compliance and ethical AI use.

#### How You Performed

- Current Score: 7.5 / 10 (75%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Maintain a clear, accessible Data & AI Policy.
- Keep an audit trail of key system changes for at least 90 days.
- Update incident response and governance meetings biannually.

### Financial & Resources

At 5.8/10, financial and resource allocation is adequate but not optimized. While some budget is set aside for AI and incidentals, the company isn't maximizing grants or incentives and lacks disciplined TCO checks before new investments. Formalizing AI budget lines and leveraging government programs can unlock more resources for transformation.

#### How You Performed

- Current Score: 5.8 / 10 (58%)
- Trend vs. Previous: First-time assessment

#### Key Best Practices

- Set a dedicated AI budget covering tools, training, and advisory.
- Track and apply for relevant government grants or credits.
- Run TCO checks before any new AI investment.

## Personalized AI Recommendations

### Top 5 AI Rocks for Next Quarter

Here are your highest-impact, easiest-to-implement AI rocks for the next 90 days:

- **Appoint Departmental AI Champions**

Rationale: Drives adoption, creates internal advocates, and accelerates upskilling across all teams with minimal cost or disruption.

- **Centralize Core Data and Document Data Flows**

Rationale: Enables automation, reduces silos, and prepares data for AI toolsunlocking analytics and process improvement potential.

- **Upgrade Core Systems for AI Compatibility**

Rationale: Modern platforms with open APIs are foundational for integrating AI and automating workflowsessential for catching up to competitors.

- **Integrate AI Literacy into Onboarding and Run Biannual Skills Assessments**

Rationale: Building baseline AI fluency ensures every hire and current team member can leverage AI, compounding productivity gains.

- **Use a Prioritization Matrix to Rank and Launch Process Automations**

Rationale: Focuses energy on high-ROI, quick-win automations, proving value and building momentum for broader AI transformation.

## Assessment Answers

Question 1

Our Vision / 3-year picture / 1-year plan explicitly considers an AGI future.

Your answer: **Strongly Disagree**

---

Question 2

The company sets at least one corporate AI Rock each quarter, with a measurable outcome.

Your answer: **Neutral**

---

Question 3

Every team member sets one personal AI Rock each quarter, tailored to role and proficiency.

Your answer: **Disagree**

---

Question 4

Our Ideal Customer Profile (ICP) is reviewed annually for AI alignment.

Your answer: **Disagree**

---

Question 5

We benchmark our AI ambitions against competitors at least once a year and are progressing toward real-time insights.

Your answer: **Strongly Agree**

---

Question 6

Specific AI Key Performance Indicators (KPIs) appear on the company Scorecard.

Your answer: **Strongly Agree**

---

Question 7

Staff feel safe proposing automation ideas.

Your answer: **Neutral**

---

Question 8

AI-related wins are celebrated publicly (Slack, all-hands, etc.).

Your answer: **Strongly Agree**

---

Question 9

We follow a simple communication plan for any tech change.

Your answer: **Strongly Agree**

---

Question 10

Automated feedback loops collect team & customer input.

Your answer: **Agree**

---

## Assessment Answers (continued)

Question 11

Core values and the People-Tracker include at least one AI-aligned metric.

Your answer: **Strongly Disagree**

---

Question 12

Every team member sets an AI-Educational Rock each quarter, tailored to role and proficiency.

Your answer: **Strongly Disagree**

---

Question 13

We assess digital/AI literacy for every team member twice a year and tailor follow-up training plans.

Your answer: **Neutral**

---

Question 14

AI literacy is built into new-hire onboarding.

Your answer: **Disagree**

---

Question 15

Each department names an AI Champion.

Your answer: **Strongly Agree**

---

Question 16

A senior AI advisor (in-house or fractional) is available for guidance.

Your answer: **Disagree**

---

Question 17

A single Data Champion owns company-wide data practices.

Your answer: **Agree**

---

Question 18

A one-page data strategy is reviewed each quarter.

Your answer: **Strongly Agree**

---

Question 19

Key customer and operations data live in one CRM/ERP or shared platform.

Your answer: **Disagree**

---

Question 20

A simple data-flow diagram shows how data moves between systems.

Your answer: **Disagree**

---

## Assessment Answers (continued)

Question 21

We enrich first-party data whenever possible.

Your answer: **Strongly Disagree**

---

Question 22

Files and records carry consistent metadata/tags for easy search.

Your answer: **Neutral**

---

Question 23

Our main systems expose APIs or connect via Make / n8n web-hooks.

Your answer: **Agree**

---

Question 24

Core tools are cloud-based and “AI-ready” (modern, open APIs).

Your answer: **Disagree**

---

Question 25

An integration platform (Make or n8n) already handles simple hand-offs.

Your answer: **Agree**

---

Question 26

Company communications are stored in Slack/Teams channels that mirror projects or clients for future AI search.

Your answer: **Strongly Disagree**

---

Question 27

Preferred vendors and partners for AI integrations are identified and vetted.

Your answer: **Strongly Disagree**

---

Question 28

Top revenue- or time-heavy processes are mapped in living SOPs.

Your answer: **Neutral**

---

Question 29

Each SOP flags pain-points or bottlenecks for potential automation.

Your answer: **Strongly Agree**

---

Question 30

A Prioritisation Matrix (ROI, time-to-impact, resource alignment) ranks which processes to tackle first.

Your answer: **Strongly Agree**

---

## Assessment Answers (continued)

Question 31

Baseline metrics (time, cost, errors) are captured before any change.

Your answer: **Strongly Agree**

---

Question 32

Weekly Level-10 / strategy meetings follow a consistent agenda that includes an AI discussion segment.

Your answer: **Strongly Disagree**

---

Question 33

A plain-English Data & AI Policy covers privacy, bias, and acceptable use.

Your answer: **Strongly Agree**

---

Question 34

A cross-functional AI Governance Team meets at least twice a year.

Your answer: **Neutral**

---

Question 35

Data collection complies with GDPR / CCPA / PIPEDA (as applicable).

Your answer: **Neutral**

---

Question 36

A lightweight incident-response plan exists for digital tools and data issues.

Your answer: **Agree**

---

Question 37

We keep an audit trail of key-system changes for e 90 days.

Your answer: **Strongly Agree**

---

Question 38

A dedicated AI budget line covers tools, training, and advisory help.

Your answer: **Agree**

---

Question 39

Government grants or tax credits (e.g., SR&ED, IRAP, CDAP) are tracked and applied for when eligible.

Your answer: **Neutral**

---

Question 40

We run a total-cost-of-ownership (TCO) check—licences, staff time, support—before green-lighting any AI initiative.

Your answer: **Neutral**

---
